

PHARMACOSMOS

Committed to Quality

DEAE-Dextran

Pharmacosmos offers DEAE-Dextran based on Pharmacosmos' world-leading Dextran

Pharmacosmos DEAE-Dextran is produced at Pharmacosmos' state-of-the-art, GMP-approved facility in Denmark. Pharmacosmos DEAE-Dextran is developed and manufactured according to the same advanced standards and requirements of the highest quality as applied in the development and manufacturing of our world leading Dextran products. Pharmacosmos offers DEAE-Dextran from 5 g up to 50 kg pack sizes.

DEAE-Dextran offers many applications, e.g. as a component or adjuvant in vaccines, for transfection, for cholesterol- and weight modulation, as a stabiliser of proteins, or for drug delivery.

Pharmacosmos also offers custom-made production of carbohydrate derivatives.

Please see www.dextran.net for additional info.

Five decades in Dextran R&D

Pharmacosmos is approved by the US FDA and is the only Dextran manufacturer that has received certificates of suitability from the European Directorate for the Quality of Medicines (EDQM) for the pharmacopoeial dextran fractions Dextran 1, Dextran 40, Dextran 60 and Dextran 70.

Pharmacosmos supplies Pharmaceutical Quality Dextran fractions in accordance with the European, the US and the Japanese Pharmacopeia (EP, USP and JP).
